JOBKOREA

COVID-19 has had a devastating effect on college students, especially negatively affecting employment.

However, due to the decrease in connection between her seniors and juniors and friends, they became dependent on online media such as corporate blogs, SNS, and YouTube to prepare for their job.

SKKU has prepared a system for the connection between seniors and juniors in various ways. However, there are many cases where they do not know and people do not use it.

Although it is non-face-to-face in the metaverse,
it provides the feeling of meeting in person.

NON-CONTACT: talk comfortably, meet anytime, anywhere.

CONTACT: easy communication, vivid experience

PLAN & EFFECT

; Influence on our lives

New paradigm of recruit

As we are live in COVID-19,
the older form of recruitment has
been vanished.
Our service can suggest
new form of recruitment
by using augmented reality platform.

Activate school facility

Our school has a facility
whose name is
“Student Success Center”.
We can share our service with
this facility and expect activation
of school functionality.

Make community

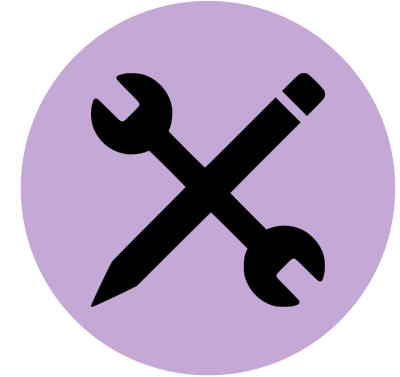

- Make travel our school in the virtual space.
- Expect making our own community using technology.

connection with graduates

- Make connections between students and graduates.
- Can ask some advices through our own community

cutting-edge skills

- Learn more about cutting-edge VR technology
- Make service that satisfy our purpose on our own

THANKS!
